EXECUTIVE SUMMARY

A total of 914 students graduated from The University of Tulsa between August 2013 and May 2014. Of that total, responses were received from 876 (96%) students. Responses indicated that 564 (64%) graduates had accepted employment, 245 (28%) were continuing their education, 26 (3%) would not be continuing education or seeking employment, and 41 (5%) were still seeking employment.

2013 - 2014 Total Graduate Activity (n = 876)

Of the 876 responding graduates, 5% were still seeking employment, resulting in a 95% placement rate for undergraduate and graduate students for 2013-2014.

Of the 605 who were seeking employment, 93% were employed and 7% were still seeking employment six months after graduation. This compares to the 2012-2013 report which indicated 82% were employed and 18% were still seeking employment three months after graduation.
EXECUTIVE SUMMARY, CONTINUED

Overall employer activity remained steady in 2013-2014. A total of 843 employers posted 2,597 jobs on the TU Career Services’ Golden OpporTUities job board. A total of 951 companies worked with Career Services throughout the year as part of their recruiting and hiring efforts. In 2013-2014, 80 employers conducted on-campus interviews to fill 326 positions. Major employers recruiting included such companies as Phillips66, ONEOK, Bank of Oklahoma, Schlumberger, ConocoPhillips, Baker Hughes, Williams, and many others.

The University of Tulsa has maintained steady relationships with major companies both locally and nationally. A total of 174 companies participated in the 2013-2014 recruiting process by interviewing on-campus and/or attending at least one of four job fairs hosted by Career Services.

**TOTAL GRADUATE/PROFESSIONAL SCHOOLS TO BE ATTENDED:** 82
Henry Kendall College of Arts & Sciences

REPORT FOR GRADUATES BETWEEN
AUGUST 2013 AND MAY 2014

2013 – 2014 Post Graduate Survey
A total of 339 students earned degrees from the Henry Kendall College of Arts & Sciences between August 2013 and May 2014. Outcomes were obtained for 96% of the students. Responses indicated that 194 (60%) of graduates had accepted employment, 108 (33%) were continuing their education, 4 (1%) would not be continuing education or seeking employment, and 20 (6%) were still seeking employment six months after graduation.

Overall Graduate Activity (n = 326)

Of the 326 graduates reporting, 6% were still seeking employment, resulting in a 94% placement rate for the Henry Kendall College of Arts and Sciences graduate and undergraduate students for 2013-2014. Of those seeking employment, 91% were employed and 9% were still seeking employment six months after graduation. This compares to the 2012-2013 report which indicated 75% were employed and 25% were still seeking three months after graduation.

Total Placement (n = 326)  Accepted or Seeking Employment (n=214)

A total of 80 companies recruited on-campus for Arts & Sciences majors in the 2013-2014 by conducting on-campus interviews and/or attending at least one of four job fairs hosted by Career Services. Thirteen (13) companies conducted on-campus interviews and 77 companies hired Henry Kendall College of Arts and Sciences graduates.

Collins College of Business

REPORT FOR GRADUATES BETWEEN AUGUST 2013 AND MAY 2014

2013 – 2014 Post Graduate Survey

In past years, Collins College of Business has included traditional business majors and health science majors. In preparation for the new College of Health Sciences, we have separated these majors into separate sections.
Collins College of Business (2013-2014) Executive Summary
Traditional Business Majors

A total of 257 students earned degrees from the Collins College of Business between August 2013 and May 2014. Outcomes were obtained for 95% of the students. Responses indicated that 170 (70%) of graduates had accepted employment, 35 (14%) were continuing their education, 26 (11%) would not be continuing education or seeking employment, and 13 (5%) were still seeking employment six months after graduation.

Overall Graduate Activity (n = 244)

Of the 244 responding graduates, 4% were still seeking employment, resulting in a 96% placement rate for Collins College of Business undergraduate and graduate students for 2013-2014. Of those seeking employment, 95% were employed and 5% were still seeking employment six months after graduation. This compares to the 2012-2013 report which indicated 87% were employed and 13% were still seeking three months after graduation.

Total Placement (n = 244)

Accepted or Seeking Employment (n=183)

A total of 133 companies recruited business majors in the 2013-2014 by attending at least one of four job fairs hosted by Career Services and/or conducting on-campus interviews. A total of 56 companies conducted on-campus interviews and 119 companies hired Collins College of Business graduates.

A total of 361 students earned degrees from the College of Engineering and Natural Sciences between August 2013 and May 2014. Outcomes were obtained for 342 (95%) of the students. Responses indicated that 204 (60%) of graduates had accepted employment, 118 (34%) were continuing their education, 6 (2%) would not be continuing education or seeking employment, and 14 (4%) were still seeking employment six months after graduation.

Of the 342 responses, 4% were still seeking employment, resulting in a 96% placement rate for College of Engineering & Natural Sciences undergraduate and graduate students for 2013-2014. Of those seeking employment, 94% were employed and 6% were still seeking employment six months after graduation. This compares to the 2012-2013 report which indicated 84% were employed and 16% were still seeking three months after graduation.

A total of 93 companies recruited Engineering and Natural Science majors in the 2013-2014 by attending at least one of four job fairs hosted by Career Services and/or conducting on-campus interviews. Fifty-six (56) companies conducted on-campus interviews and 118 companies hired College of Engineering & Natural Sciences graduates.
