A total of 1104 students graduated from The University of Tulsa between August 2017 and May 2018. The Office of Career Services acquired first-destination career outcomes for 972 (88%) of the students. Our knowledge indicated that of the 972 graduates with career outcomes, 644 (66%) had accepted employment, 37 (4%) were seeking employment, 262 (27%) were seeking further education, and 29 (3%) were taking time off. This results in the total placement of 935 (96%) students.

Note: “Total Placement” has been classified as students who are achieving their goal upon graduation. This includes students who have accepted employment, students who are continuing their education, and students who chose to take time off for a variety of reasons. The term “Total Placement” only excludes those students who are still seeking employment six months after graduation (i.e. “Still Seeking”).
Executive Summary Continued

The University of Tulsa has maintained steady relationships with major companies both locally and nationally. 190 companies participated in the 2017 – 2018 recruiting process by interviewing on-campus and/or attending at least one of the five job fairs hosted by Career Services. Major employers recruiting on-campus included such companies as Bank of Oklahoma, Chevron, Halliburton, Koch Industries, KPMG, Phillips 66, and Williams, among many others.

Additionally, 40 employers conducted 944 on-campus interviews hiring for 102 positions.

During the 2017 – 2018 year, 526 employers posted 3749 job openings on the TU Career Services’ Golden Opportunities job board.

**TOTAL GRADUATE SCHOOLS ATTENDED BY 2017-2018 GRADUATES:** 76
A total of 243 students graduated from the Henry Kendall College of Arts & Sciences between August 2017 and May 2018. The Office of Career Services acquired first-destination career outcomes for 228 (94%) of the students. Our knowledge indicated that of the 228 graduates with career outcomes, 141 (62%) had accepted employment, 10 (4%) were seeking employment, and 69 (30%) were seeking further education, and 8 (4%) were taking some time off. This results in the total placement of 218 (96%) students.

Note: “Total Placement” has been classified as students who are achieving their goal upon graduation. This includes students who have accepted employment, students who are continuing their education, and students who chose to take time off for a variety of reasons. The term “Total Placement” only excludes those students who are still seeking employment six months after graduation (i.e. “Still Seeking”).

**Hiring Employers:** Insights Data Science, PepsiCo, U.S. Army Research Institute
Collins College of Business
For Graduates Between August 2017 – May 2018
A total of 281 students graduated from the Collins College of Business between August 2017 and May 2018. The Office of Career Services acquired first-destination career outcomes for 198 (70%) of the students. Our knowledge indicated that of the 198 graduates with career outcomes, 155 (78%) had accepted employment, 5 (3%) were seeking employment, 36(18%) were seeking further education, and 2(1%) were taking time off. This results in a total placement of 162 (97%) students.

Note: “Total Placement” has been classified as students who are achieving their goal upon graduation. This includes students who have accepted employment, students who are continuing their education, and students who chose to take time off for a variety of reasons. The term “Total Placement” only excludes those students who are still seeking employment six months after graduation (i.e. “Still Seeking”).

2017 - 2018 Total Business Career Outcomes (n = 198)

- Employed: 155 students (78%)
- Grad School: 36 students (18%)
- Still Seeking: 5 students (3%)
- Time Off: 2 students (1%)

Total Placement: 162 students (97%)

* Of the 129 Respondents

Due to unforeseen circumstances outcomes for the Collins College of Business was not collected until 8-10 months after graduation, resulting in a very low knowledge rate from undergraduate international students. For a more representative presentation of undergraduate international student outcomes, contact the Collins College of Business Career Center.

Oklahoma State University  University of Texas - Austin
University of Colorado Boulder  University of Tulsa
University of Oklahoma  University of Tulsa College of Law
University of Rochester - Simon Business School

TOTAL GRADUATE SCHOOLS ATTENDED BY BUSINESS GRADUATES: 9
Outcomes for the Collins College of Business by major
may be requested from the Business Career Center

Outcomes for Bachelor of Science in Business Administration
with a major in Economics are reported on page 28
A total of 507 students graduated from the College of Engineering & Natural Sciences between August 2017 and May 2018. The Office of Career Services acquired first-destination career outcomes for 475 (94%) of the students. Our knowledge indicated that of the 475 graduates with career outcomes, 290 (61%) had accepted employment, 23 (5%) were seeking employment, 142 (30%) were seeking further education, and 20 (4%) were taking time off. This resulted in the total placement of 333 (95%) students.

Note: “Total Placement” has been classified as students who are achieving their goal upon graduation. This includes students who have accepted employment, students who are continuing their education, and students who chose to take time off for a variety of reasons. The term “Total Placement” only excludes those students who are still seeking employment six months after graduation (i.e. “Still Seeking”).

Oxley College of Health Sciences
For Graduates Between August 2017 – May 2018
Oxley College of Health Sciences Executive Summary

Career Outcome and Employment Rates for the 2017 – 2018 Year

A total of 98 students graduated from the Oxley College of Health Sciences between August 2017 and May 2018. The Office of Career Services acquired first-destination career outcomes for 95 (97%) of the students. Our knowledge indicated that of the 95 graduates with career outcomes, 72 (76%) had accepted employment, none (0%) were seeking employment, 23 (24%) were seeking further education, and none (0%) was taking time off. This results in a total placement of 95 (100%) students.

Note: “Total Placement” has been classified as students who are achieving their goal upon graduation. This includes students who have accepted employment, students who are continuing their education, and students who chose to take time off for a variety of reasons. The term “Total Placement” only excludes those students who are still seeking employment six months after graduation (i.e. “Still Seeking”).

Inter-Disciplinary Graduate Degrees
For Graduates Between August 2017 – May 2018
Inter-Disciplinary Graduate Degrees Executive Summary

Career Outcome and Employment Rates for the 2017 – 2018 Year

A total of 3 students graduated with Inter-Disciplinary Graduate Degrees between August 2017 and May 2018. The Office of Career Services acquired first-destination career outcomes for all 3 (100%) of the students. Our knowledge indicated that of the 3 graduates with career outcomes, all 3 (100%) had accepted employment, none (0%) were seeking employment, and none (0%) were seeking further education. This results in the total placement of 3 (100%) students.

Note: “Total Placement” has been classified as students who are achieving their goal upon graduation. This includes students who have accepted employment, students who are continuing their education, and students who chose to take time off for a variety of reasons. The term “Total Placement” only excludes those students who are still seeking employment six months after graduation (i.e. “Still Seeking”).
