

Mandatory Professional Licensure Disclosure

Per U.S. Federal Regulations, 34 CFR § 668.50 (2016 Rules), in preparation for the adoption of 34 C.F.R. §668.43 (2019 Rules), and in compliance with the State Authorization Reciprocity Agreements (SARA) Manual version 19.2, The University of Tulsa provides the following disclosure related to the educational requirements for professional licensure and certification¹.

This Disclosure is strictly limited to the University's determination of whether its educational program, *Doctor of Nursing Practice- with concentrations in Adult-Gerontology Acute Care Nurse Practitioner, Family Nurse Practitioner, and Nurse Anesthesia*, if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for advance practice nursing.² Tulsa cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming.

This disclosure does not provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does not account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. Enrolled students and prospective students are strongly encouraged to contact their State's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.

The University of Tulsa has designed an educational program curriculum for a *Doctor of Nursing Practice- with concentrations in Adult-Gerontology Acute Care Nurse Practitioner, Family Nurse Practitioner, and Nurse Anesthesia*, that if successfully completed **is sufficient to meet** the licensure and certification requirements for an advanced practice license in the following states³:

¹ The terms related to advance practice nursing, including licensure and certification, among others, vary by state and your state may use different terms.

² This determination is based on the educational and curricular requirements of each state for licensure (ie, excluding any special, temporary licensure that may be granted) and does not imply that other requirements for licensure do not exist or have been determined to have been met by this program or that any necessary approvals for clinical placements have been secured at the time of enrollment. An unencumbered RN license in the state of intended practice is a requirement of entry and continuation in the program. This determination assumes that University of Tulsa's existing nursing program accreditation, which has a substantial change application for the DNP-concentrations discussed here, is sufficient to meet states' standards as an accredited program. Each student should verify their particular situation with their intended state's licensing entity.

³ If the State does not regulate/license advanced practice nursing, Tulsa's program has been determined to be insufficient for practice in that particular state.

The University of Tulsa has designed an educational program curriculum for a *Doctor of Nursing Practice- with concentrations in Adult-Gerontology Acute Care Nurse Practitioner, Family Nurse Practitioner, and Nurse Anesthesia*, that if successfully completed is **insufficient to meet** the licensure and certification requirements for advanced practice nursing in the following states:

STATE	Board of Nursing- Licensure Contact
N/A	

After making all reasonable efforts, The University of Tulsa **cannot determine** whether its educational program curriculum for a *Doctor of Nursing Practice- with concentrations in Adult-Gerontology Acute Care Nurse Practitioner, Family Nurse Practitioner, and Nurse Anesthesia*, if successfully completed, is sufficient to meet the licensure and certification requirements for advanced practice nursing in the following states⁴:

STATE	Board of Nursing- Licensure Contact
N/A	

⁴ This does not mean the educational program will not ultimately be approved by the state entity, or that licensure could not result from attending this program.
