

## Mandatory Professional Licensure Disclosure

New United States Department of Education regulations require that all programs designed to meet educational requirements for a specific professional license or certification that is required for employment in an occupation determine and disclose whether completion of that program would be sufficient to meet licensure requirements in a State for that occupation. Pursuant to those requirements, The University of Tulsa provides the following disclosure relating to whether the master's degree program in athletic training meets the educational requirements for professional licensure and certification<sup>1</sup>.

This Disclosure is strictly limited to the University's determination of whether its educational program, *Master of Athletic Training*, if successfully completed, would be sufficient to meet the national certification or educational licensure, certification, or registration requirements in a State for the practice of athletic training.<sup>2</sup> Tulsa cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming.

This disclosure does not provide any guarantee that any particular national certification or state licensure or registration entity will approve or deny your application. Furthermore, this disclosure does not account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made.

Enrolled students and prospective students are strongly encouraged to contact their State's licensure entity using the link provided to review all licensure and registration requirements imposed by their state(s) of choice.

The University of Tulsa has designed an educational program curriculum for a *Master of Athletic Training* degree, that if successfully completed, **is sufficient to meet** the National Board of Certification Exam requirements that are recognized in all 50 States. This exam is used by individual state regulatory agencies to award licensure and registration at the state level for the practice of athletic training. Licensure and registration information for each state can be found at <https://bocatc.org/state-regulation#state-regulation> .

---

<sup>1</sup> The terms related to athletic training, including licensure and registration, among others, vary by state and your state may use different terms.

<sup>2</sup> This determination is based on the educational and curricular requirements of each state for licensure (ie, excluding any special, temporary licensure that may be granted) and does not imply that other requirements for licensure do not exist or have been determined to have been met by this program or that any necessary approvals for clinical placements have been secured at the time of enrollment.
